

(For immediate release) **NoteSchool™ Creates Live Two-Day Course to Meet the Seller Finance Training Needs of Introductory Level Students**

**Dallas, TX, March 30, 2009** -- NoteSchool™, the premier training center for all levels of seller finance education, will offer a new two-day live course to its roster to teach the fundamentals of seller financing to professionals that are new to the industry.

Eddie Speed, founder of NoteSchool™, said, "Educating people at the beginning of their careers in seller financing is crucial to their long term success, as seller financing becomes prevalent among traditional forms of lending."

Now in its fifth year, NoteSchool™ has trained thousands of students, from property owners and investors, to real estate professionals and interested entrepreneurs, in the business of seller financed notes. These mortgage loan vehicles are used when a property owner both sells and creates a loan for a buyer of the property.

As banks and other traditional lending sources tighten their credit availability to buyers seeking loans, seller financing provides a way for qualified borrowers who may have just missed the application requirements, to obtain fair and legal loans. The process benefits both buyers and sellers of property, while creating an industry in which seller financing expertise is highly valued.

While NoteSchool™ currently has a popular introductory home study course available (KnowNotes™), the live introductory class is a recent addition to the curriculum. As in other live seminar situations, students benefit from the classroom environment where they are able to ask questions from experienced professionals and meet Eddie Speed personally. This added dimension translates into more solid understanding and more committed and purposeful seller finance careers.

In addition to his role as president and founder of NoteSchool™, Eddie Speed made a name for himself by achieving levels of seller financing unmatched by anyone in the seller finance industry. His thirty years experience and high volume of over 30 thousand notes totaling over \$500 million, secures Speed's position at the top of his field.

The next two-day live introductory class will be held in Dallas on April 25<sup>th</sup> and 26<sup>th</sup>, 2009. Future classes at all levels of proficiency continue to form as need and popularity dictate. Perspective students may obtain detailed enrollment information by contacting <http://www.noteschool.com/2DayIntroClass.html> or Duane Gibbs at 1-888-847-9353.
